WHS April Speaker

Our April 11th Speaker: Martin Grantham

Garden curator and propagator

"Exploring South Africa's Western Cape for New Plant Gems"

May 9: Bob Hornback

Owner of Muchas Grasses, Occidental, CA

"Variegated Plants: Horticulture Goes Hollywood."

WHS Field Trip to William Land Park

Spring should be right around the corner so come enjoy a day of garden touring with Daisy Mah. Daisy has generously volunteered to give us a personal tour of William Land Park where she creates and maintains all the gardens within the park. She has tried to create landscaping that will survive the brutal heat of the interior valley and still look great and attract wildlife. This should be a great tour where we can learn what plants survive not only the interior valley conditions but in a public park as well. Talk about hardy plants! We will have other garden possibilities to visit for the afternoon as well. Fliers with detailed meeting instructions will be at our next couple of meetings as well as sign up sheets, or contact

Leslie Dean to sign up to go on this trip. At (650)967-5408 or lesliekdean@mindspring.com

Leave me your name, phone number, email address and the number of people who will be coming with you as well as if you will be carpooling.

Date: Saturday, April 21 **Time:** 10:00 a.m. at the park. We will carpool from here leaving around 7:30 a.m.

Place: William Land Park, Sacramento ~ *Leslie Dean*

Our monthly meetings feature the speakers listed above; doors open at 7pm and meetings begin at 7:30. The location is Covington School, 205 Covington Road, Los Altos. Please also join our speaker for dinner prior to the meeting at Chef Chu's at 5:30pm at the corner of El Camino Real and San Antonio Avenue. This is a terrific opportunity for our members to get to know each other better, and to get to chat with our speakers. Please call Pat Knight to confirm at 650-941-6136.

The next newsletter deadline will be April 18th. Please call or email Michelle Bond (editor) at 650-363-9244 or michelle@hunzikers.org for newsletter content. Please contact Claudia Stopp at 408-370-6936 or cjsubhi@sbcglobal.net with any changes of address.

Blooming Art Sale

What fun it was last month to see how talented and generous our WHS artists are! But don't despair, it's not too late to include **your** art in our big fund raiser. There's still time to volunteer and join in the fun, too.

Donate Art

We are fortunate to have John Hammerschmidt storing the art for us. If you have some plant or nature themed art you'd like to donate (remember--art donors can receive a rebate of up to 25% of the sales price) please bring it to our April 11 meeting, take it to John's house or call one of the art committee members for help. We'd love to have a few more garden sculpture/outdoor art items. They seem to be the big sellers right now.

Volunteer to Help

All our efforts are now focused on the big day, **Sunday April 15th**, when we will be joining in with the Master Gardener's big tomato and pepper sale at the **SJ Mercury News** parking lot at **750 Ridder Park Drive**. Come out and help or come out and buy that piece of art that you had your eye on at the March meeting!

To donate art or volunteer to help, contact:

Janice Gillmore (408)867-9428 janicegillmore@yahoo.com, Sherry Hall (831)724-0822 john.sherry@charter.net, Nancy Schramm (408)847-2313 edgreenthumb@att.net ~*Nancy Schramm*

"If it's rare, we want it. If it's tiny and impossible to grow, we've got to have it. If it's brown, looks dead, and has black flowers, we'll kill for it." ~*Ken Druse*

Raffle Table

The April raffle table will be a joint effort, supplied by the Raffle Table Committee and by the Board. And let's start planning ahead to our last raffle table of the year. For our May table, everyone bring in something variegated to celebrate our speaker, Bob Hornback's topic: Variegated Plants.

28 Years Ago in the WHS...

The April 1979 WHS speaker was Richard Heib of Jenner, CA. Heib's talk was titled "Exotic Trees and Shrubs in a Sonoma Coast Garden" He showed some slides and many specimens of plants in the Proteaceae Family. His collection included plants from Australia, South Africa, The Canary Islands, and Chile.

The newsletter announced an event to be held the first weekend of May 1979. It featured "tours of Barbara Worl's two acre garden" and (across the street) many floral displays "with a special one in the Flemish style done by Emily Brown and Barbara Barlow". A quick look at the Board Meeting minutes for March mentions the May weekend as a series of "field trips" which also included "tours of the Betsy Clebsch garden, the Union Cemetery at Redwood City, possibly two East Bay gardens, and a plant sale & speakers".

"Several fine specimens of flowering shrubs and perennials were brought for display." Some mentioned were *Prostranthera rotundifolia*, *Corokia cotoneaster*, *Lasthenia macrantha* (related to our native 'Goldfields'), *Disporum sessile* (related to our native 'Fairy Bells'). Ed Carman brought in a "delightful display of dwarfs" (eat your heart out, Kerry Barrs!). ~ *Nancy Schramm*

This Year's WHS Founder's Award

Long-time member, Elizabeth Garbett was presented with the third Founder's Award at our meeting on February 14, which was very appropriate as Elizabeth has been a very special member for many, many years. After some years of serving on the Board, Elizabeth began writing the plant notes in 1990 and she has been putting them together for us every month since then.

Bill Kurtz entertained us with some of her humor and wit when he read for us some of her past notes published in our newsletter. Elizabeth has captured our fancies through the years with her most descriptive and enlightening comments therein.

Elizabeth has always been a very active member in our society. She and her husband "Budge" helped with some of our exhibits in the San Francisco Flower and Garden Show and she has been instrumental in getting our newsletters mailed each month for quite some time.

Some favorite memories for a number of our members are the get-togethers Elizabeth held at her lovely home. Her gardens were always appealing and everyone enjoyed the miniature train which runs all the way around the lower garden.

Elizabeth has those attributes every organization needs to survive and flourish. We have been and continue to be honored with her involvement in the Western Horticultural Society. ~ *Claudia Stopp*

“Compost is best aged a little like a fine wine.

I mean, would you prefer to drink a nice ‘97, or something that was made last Thursday?”

~*David Hobson*
