Location: The Garden House at Shoup Park, 400 University, Los Altos

Please join the other Western Horticultural Society members for our annual Holiday Potluck!

Featuring, in addition to our December Speakers Helen McKenna-Ridley and Allan Ridley, the WHS Founders’ Award Presentation, our delicious annual potluck, and lots of holiday cheer! Also, we will be collecting food donations for Second Harvest, so please bring canned or packaged nutritional foods (no beverages) for the collection, if you can.

Please bring a main dish, salad or dessert to share, as well as your own plates and utensils. The WHS board will be supplying appetizers, cups and beverages. We ask that your dish serve a minimum of 8 people, so there is enough to go around for everyone.

A big Thank You goes out to the businesses that support WHS with donations to the raffle table. Al's Nursery, in Portola Valley (650) 851-0206 and Carman's Nursery, in Gilroy (408) 847-2313. Our speaker, Tom Bressan of The Urban Farmer Store in San Francisco (415) 661-2204 was also very kind in donating several desirable items to the raffle table. Visit these folks and tell them how much you appreciate their support. And, of course, thanks to our faithful members brought in more things to make for a great selection. There is no raffle table in Dec, but if you have \$\$ burning a hole in your pocket, be sure to check out the art sale at the Holiday Potluck! Half the proceeds benefit WHS.

Update on Western Hort Spring Plant Sale

We are encouraged to learn that many of you are busy propagating plants for the sale. If anyone needs plastic containers, gallon or smaller, contact me, I have lots of extras. We would like to get planters for the sale and we know there are many talented members out there. It is important to start early to have nice full planters at the time of the sale. Also, Nancy Schramm asked her local Ag inspector about the WHS having a plant sale in the spring, and she said it should be fine, that the ag dept will be glad to come out and inspect the plants so we can sell them. That would be even if the plants are grown in a quarantine area, which is great news for us. ~Elizabeth Garbett

Propagation Workshop a Success!!

Our first propagation workshop was a big success. In spite of the rain, approximately 250 cuttings were potted up. We will be having more workshops in the future—Niki Muller will set the dates. It was so much fun, so please plan on joining us. Just e-mail Niki at docpdm@earthlink.net to inform her of your interest in being part of the next workshop. ~Chris Egan

“All gardeners need to know when to accept something wonderful and unexpected, taking no credit except for letting it be.” ~ Allen Lacy

Bulb Food

Janice Gilmore called Barbara Worl to ask about the care and feeding of the Scilla bulbs she gave away at our November meeting. Barbara said that she uses a special bulb food that is so good that she uses it on almost everything. It used to be called “Cricket Crap” but it is now called ‘Brent and Becky's Bulb Supplement’ Their address is: 7900 Daffodil Lane, Gloucester VA 23061 Phone: 804-693-3966 Barbara buys the supplement in 35lb sacks, so perhaps if other members are interested in purchasing some, they could get together and share an order if 35lbs seems like a bit too much for one person.

28 Years (and One Month) Ago in the WHS...

The November 1979 WHS meeting had not one but three speakers, and I'm sure any one of the three could have easily filled the program individually. First to speak was Chuck Anderson of Sunset Magazine. He told about the (Nancy Hardesty designed) landscaping he and his wife, Karen had accomplished in the previous two years. (I asked Karen for an update on that landscape. She told me that the landscape had matured nicely, eventually adapting gracefully to losses from oak root fungus. She and her husband Claude are having Leslie Dean work on a landscape plan for their current home.) Next, Lucy Erickson (now Tolmach) from Filoli had a slide presentation to “tell us how a new border comes into being” (I wonder how many more new borders she's created since then?) And finally, Judith Lowry (Larner Seeds), who was at that time working at Yerba Buena Nursery, gave “a brief glimpse into what is required to collect, store, and package seeds from the wild.” Your speaker committee hopes to have Judith return for a whole evening. She now has a seed business, 20 year old demo garden, and books and essays to talk about. ~Nancy Schramm

A Request to Our Members

We all still love to garden and learn all there is to know about plants. But due to changing lifestyles and work commitments, fewer of us than ever before have time to give those few extra hours to help keep organizations like Western Hort running. This puts an even greater burden on our current board and we need assistance. If even 3-4 of you can join the board for the next year or two and give just four hours a month, you'll help us get through this crunch time. Former board members and long time members, please consider helping us out. Our finances are in good shape, our speaker program is excellent, but doing all those tasks required of nonprofit organizations just takes time. Please consider helping us out. Thank you! ~ *The WHS Board*
